## PROJECTS

### Notes web application

My first, more developed fullstack JavaScript project. The application allows to manage your own short notes. In addition, each user can add a profile photo, change their e-mail address, or prioritize individual notes.

#### TECH STACK:

1. Express.js.
2. Vanilla JS.
3. MySQL.
4. TailwindCSS.
5. Jenkins.
6. Docker
7. NGINX.

### My portfolio

First project in React.js. It took quite a long time to create, but an additional goal of its implementation was to learn the library ecosystem. During my work, I learned many secrets and best practices for working with React.
